

HW:

The American Opinion copy of this Stang piece never showed up. Perhaps you sent it to someone else. Anyway, we're returning this copy, and thanks. We Xeroxed it and get a clearer copy for ourselves than this, which is perfectly okay.

Did you note that Stang purports to identify Bremer's babysitter as Kushman-Cuzman-Cousins-Cossini ? And did you notice that Cossini or whoever it is was found dead in a parked car in Toronto on July 6, 1972 ? See Page E7900.
